

BluePath Labs combines mission and business insights with advanced technologies to deliver measurable performance improvements for our clients. The quality of our work is validated by our ISO 9001:2015 certification, excellent CPARS ratings, and 20+ prime contracts. BluePath is dedicated to surpassing client expectations by always living by our core values of *integrity*, *professionalism*, and *resilience*.

BluePath’s expertise spans three interconnected domains crucial to organizational success -- **People, Process, and Technology**. BluePath’s capabilities and experience allow us to source the best talent regardless of the nature of requirement, identify bottlenecks and implement efficient processes, and identify and implement advanced technologies to deliver maximum value, flexibility, and impact to our clients. The past performances below highlight BluePath’s proficiency.

NAICS CODES: 541611, 541830, 541715, 541512, 541513, 541990

**People**

- **SETA Services**
- **Business and Administrative**
- **Intelligence Analysts**
- **Subject Matter Experts**

- **DHS Customs & Border Protection** -- In a time sensitive requirement, BluePath rapidly sourced extremely difficult to find analytical chemists to provide technical reach back support for CBP Laboratory and Scientific Services.
- **US Air Force** -- Stood up a new support contract for the Air Force's China Aerospace Studies Institute hiring native language speaking researchers with specific expertise in the China PLA.

**Process**

- **Business Process Reengineering**
- **Concept Development**
- **Independent Evaluation/Red Team**
- **Program & Project Management**

- **DOE Environmental Management** -- Providing business process reengineering, requirements analysis, and change management support to transform EM's acquisition knowledge management and collaboration capabilities.
- **DC Department of Public Works (DPW)** -- Provided business intelligence support to identify workforce and process gaps. Reengineered processes and implemented standard operating procedures and new performance metrics to optimize workflow, improve data quality and decision-making and increase customer satisfaction.

**Technology**

- **Software Development**
- **Data Analytics / AI**
- **Commercialization**
- **Scientific Portfolio Analysis**

**Air Force Research Lab** -- Built AFRL an NLP/AI enabled technology scouting webapp that automatically scans hundreds of thousands of research publications and patents delivering insights that improve scientific portfolio management.  
**Air Force CASI** -- Built CASI's cloud-based research collaboration portal for data input, research, and analysis for internal and external users (academia, non-profit, USG).

**Contracting Vehicles:** OASIS SB Pool 1 • OASIS 8(a) Pool 1 • GSA PSS: 541 4a Market Research • 874 1-Consulting • 874 7-Integrated Support Services • 520 22-Grants; NATO Basic Ordering Agreement (BOA); VA VECTOR; and 8(a) Sole Source through 2025.
