PAST PERFORMANCE

CBP LABORATORY SCIENCE SERVICES

Our team of analytical chemists provide 24/7 watch desk support at the U.S. Customs and Border Protection (CBP) National Targeting Center. The laboratory sciences team analyzes substances and provides interdiction recommendations to officers in the field.

USAF CHINA AEROSPACE STUDIES INSTITUTE

BPL publishes deep-dive, OSINT and TECHINT studies and analyses of Chinese and PLA primary source documents, contributing to improved understanding of China's industrial base and military strategies, tactics, and technology.

AIR FORCE RESEARCH LABORATORY, PROJECT HORIZON

We built and deployed an applied advanced technology platform that uses AI/ML and NLP to conduct horizon scans of major S&T domains, scientific portfolio analyses, and "narrow aperture" scans of specific, strategically important topics.
